Adlai E. Stevenson High School

Note to Students and Parents

In April of 1971 the Congress of the United States made the Federal Occupational Safety and Health Act (OSHA) an official part of the national labor law. The purpose of this law is "...to assure to far as possible every working man and woman in the nation safe and healthful working conditions and to preserve our human resources." This law affects all employees who are working in the building trades where one or more workers are employed.

Although students are not typically employees of the school, it should be noted that this law affects them as if they were. Therefore, as a student using school equipment (either purchased by the school or on loan to the school), it is just as important to develop safe work attitudes and habits as outlined by this law as it is to develop building and construction skills.

I RECOGNIZE THAT:

Safety is ultimately the responsibility of the person using the tool.

Safety regulations will be provided to me before I am allowed to use the tools.

It is possible for accidents to occur even when everyone involved is following safety guidelines. The likelihood of accident and injury increases if I do not follow all the safety guidelines.

Because there will usually be more students using tools than adults supervising them, I must act responsibly to ensure my own safety AND the safety of others in the work area.

I AGREE TO:

Never work in the shop without adult supervision.

Read and practice all the safety regulations that have been distributed to me in this course or have been posted in the work areas.

Act in a responsible manner at all times in the building and construction shop.

Follow all instructions given by the instructors and mentors.

Immediately report any unsafe condition or activity to my instructor or mentor.

Know where all safety equipment is located and what should be done in an emergency.

Wear eye protection at all times when working with tools or working anywhere near someone who is using tools. I will also wear gloves and apron when instructed.

Tie back long hair, remove dangling jewelry, secure loose clothing, and wear shoes with closed toes in the shop.

Clean all work areas and put equipment away before being dismissed.

I, _____, recognize that the catapult work area is a safe place in which to work and learn, if I conduct myself in a responsible manner. I have read through, and I agree with, all of the statements on this two-page form with my parent or guardian. I agree to assume responsibility for my own safety and work diligently to make the work area a safe place for others. I have read and understand my instructor's safety regulations. I agree to abide by the safety regulations and any additional instructions, written or verbal, provided by the district and/or instructor.

Student signature _____ date _____

Parent/Guardian Permission

I have read through all the statements on this two-page form with my child. I believe that my child understands his/her responsibility with regard to safety in the work area. I believe that my child is able to act responsibly in the work area. I authorize my child to undergo safety training for the tools in the classroom. I authorize my child to use the tools and be in the immediate area while other students are using the tools.
